

The content you need, when you need it.

The University Licensing Select program from Rehab Essentials is designed to provide you with the flexibility and support to optimize your student experience, faculty commitments, resources, and budget. With a full catalog of world-class content, University Licensing Select can be blended into any curriculum. Plus, our cohort based pricing is a cost-effective solution to your program's educational needs.

Introducing University Licensing Select

We deliver the foundational content, you create the high impact applied learning experiences.

Our world-class online seminars, modules, and courses are presented by subject matter experts and are rooted in current evidence-based distance learning practices. This allows your faculty to focus on high impact applied learning experiences, while students learn the foundational information from Rehab Essentials budget-friendly seminars, modules, and courses. To further support your faculty, University Licensing Select includes instructional activity design and assessment resources.

Budget-Friendly Solution

University Licensing Select is the world-class content you have come to expect from Rehab Essentials with an unparalleled distance learning experience. Our flat, cohort-based pricing is a cost-effective solution to your program's educational needs. Plus, when you license 3 or more seminars, modules, or courses, a bundle discount will be applied. University Licensing Select allows you to free your faculty to focus on higher impact, immersive learning, and other scholarly pursuits.
