

STRELIS

INTRODUCING STRELIS

The Foundation for Modern Health Professions Education

A New Name. A Broader Vision.

For more than a decade, Rehab Essentials has partnered with universities, educators, and healthcare professionals to expand access to high-quality health professions education. Through trusted expertise, educational content, and academic programs, we have helped institutions strengthen programs, support learners, and prepare the next generation of healthcare professionals.

Today, our role has expanded. Universities are under increasing pressure to modernize program delivery, expand capacity, improve learner outcomes, support faculty, navigate accreditation requirements, and operate more efficiently. Meeting those challenges requires more than educational content alone. It requires expertise, infrastructure, and intelligence working together. That evolution is reflected in our new name.

Rehab Essentials is becoming Strelis.

Why We're Evolving

We believe the world needs more well-trained, practice-ready healthcare professionals, and universities shouldn't have to choose between growing their programs and protecting quality.

Our mission is to help universities modernize, grow, and continuously improve health professions education through a connected foundation of strategic expertise, academic infrastructure, learning systems, and learning intelligence.

Strelis reflects the company we have become—and the future we are building.

What We Do

Strelis is a health sciences education technology company helping universities modernize, deliver, and continuously improve health professions education.

Our solutions combine strategic consulting, academic infrastructure, modular learning systems, and learning intelligence to help institutions:

- Modernize academic programs
- Expand enrollment and program capacity
- Strengthen learner outcomes
- Support accreditation readiness
- Improve academic program performance
- Operate with greater visibility and confidence

Our Products

Strelis Consulting and Advisory Services

Strategic consulting and implementation support for program growth, modernization, accreditation, and institutional transformation.

Strelis Solutions

Academic program infrastructure designed for modern health professions education.

Strelis Courses

Modular course content, embedded assessments, and LMS-ready learning components.

Strelis Programs

Structured program architecture and delivery models, including our DPT Entry and OTD Post-Professional offerings.

Strelis Complete

A comprehensive solution combining program infrastructure, operational support, and academic delivery.

Strelis Intelliview *(Coming Fall 2026)*

A learning intelligence solution that helps universities better understand learner engagement, mastery, and academic program performance through actionable insight.

What Makes Strelis Different

Unlike organizations that provide only consulting, educational content, or technology, Strelis brings these capabilities together into one connected foundation. We help universities:

- Modernize with confidence
- Preserve institutional ownership
- Support faculty leadership
- Improve learner outcomes
- Continuously strengthen academic programs over time

Because universities shouldn't have to choose between innovation and academic excellence.

What Isn't Changing

While our name is changing, our commitment remains the same. **We remain dedicated to:**

- Academic excellence
- Learner success
- Faculty expertise
- Institutional partnership
- Health professions education

The relationships we've built, and the trust we've earned, remain at the heart of everything we do.

Looking Ahead

Our vision is to become **the foundation for modern health professions education.**

We believe universities should have access to the expertise, infrastructure, and intelligence needed to modernize, grow, and continuously improve health professions education—without compromising institutional ownership, faculty leadership, academic quality, or learner outcomes.

This is more than a new name. It's the next chapter in our commitment to helping universities build stronger programs and prepare the healthcare workforce of tomorrow.
